DISCUSSION TEXT

Re- arrange this jumble paragraph into good passage and also generic structure !

VIDEO GAMES

PRO ARGUMENT

Conversely, some people believe that video games make children lazy. They argue that playing video games is addictive. As a consequences, most of children prefer playing video games to studying. These children find it hard to concentrate on their study because they always think about how to spend more time playing video games. In fact, there are also some children who skip thier extracurricular lessons, just because they want to play video games. In addition, most of video games often expose too much violence.

CONTRA ARGUMENT

It is obvios that video games have more disadvantages and advantages. Therefore, parents should be very careful in selecting the appropriate games for their children

ISSUE

Nowadays, the video games industry is developing rapidly. It becomes a multi-billion dollar industry. Video games have become an important part not only in the children's life, but also in the adult's life. Nevertheless, there is an argument whether video games bring good or bad influences on children.

CONCLUSION

People who have a pro argument claim that video games give a lot of benefit, plying video games is a good way to kill children's boredom. it can refresh the children's mind after a tiring school day. Moreover, they also argue that video games can trigger children to be more creative because the games provide challenging ways to win, In other worlds, they believe that vidoe games can actually sharpen a human's brain.
