Nouns can be countable or uncountable.

### Countable nouns

Countable nouns have singular and plural forms:

Singular: **a** customer, **one** customer

Plural: **some** customers, **two** customers, **twenty** customers

We use the quantifiers (**a/an**, **some**, **any**, **many**, **a lot of**) with countable nouns.

**some** = an amount, large or small

**many/a lot of** = a large amount

They have plural forms: **some** time, **some** money, **some** food. This means we cannot count them.

We use the quantifiers (**some**, **any**, **much**, **a lot of**) with uncountable nouns.

**much** = a large amount

**4A** Look at the words in bold in Exercise 4B. Write (C) for things you can count or (U) for things you can't count.
