Access to the Grand Canyon is carefully managed to ensure its (4) _____ preservation. Visitors can explore the area through hiking trails, scenic drives, and even (5) _____ trips along the Colorado River. However, certain areas require special (6) _____ to protect the fragile ecosystem.

The canyon's (7) _____ supports a wide variety of flora and fauna, making it a hotspot for biodiversity. Efforts to conserve this natural wonder are essential as increased tourism could (8) _____ its delicate balance. Environmentalists encourage sustainable tourism practices to minimize the impact on the environment.

Whether you're interested in geology, wildlife, or simply admiring (9) _____ landscapes, the Grand Canyon offers an unforgettable experience. It remains a (10) _____ for travelers from around the globe.

1. A. landscapes sB. natural wonders C. peaks D. valleys
2. A. charming B. sustainable C. magnificent D. virtual
3. A. ecosystem B. feature C. flora D. heritage
4. A. urgent B. wonderful C. sustainable D. annual
5. A. coral watching B. sailing C. rafting D. hiking
6. A. permission B. ecosystem C. diversity D. permits
7. A. biodiversity B. contest C. fauna D. flora
8. A. endanger B. protect C. discover D. conserve
9. A. virtual B. magnificent C. charming D. snowy
10. A. destination B. coast C. resource D. paradise

Text 2: The Great Barrier Reef: A Marine Paradise

The Great Barrier Reef, located off the coast of Australia, is the largest (1) _____ in the world. It is a vibrant ecosystem filled with coral reefs, marine life, and crystal-clear waters. Its (2) _____ diversity makes it one of the most fascinating places to explore.

Scuba diving and snorkeling are popular activities, allowing visitors to (3) _____ the reef's underwater beauty. However, the reef faces numerous challenges, including pollution and climate change, which have (4) _____ parts of its coral. Conservation efforts are (5) _____ to protect this fragile ecosystem.

To limit the impact of tourism, certain areas of the reef require special (6) _____. Visitors are encouraged to adopt sustainable practices, such as avoiding (7) _____ activities and supporting eco-friendly businesses.

The reef's unique (8) _____ includes more than 1,500 species of fish and hundreds of types of coral. It is not only a natural wonder but also a (9) _____ for environmental research and education.

With the right actions, the Great Barrier Reef can remain a (10) _____ for marine biodiversity and a destination for future generations to enjoy.

1. A. coral ecosystem B. rainforest C. national park D. natural wonder
2. A. charming B. annual C. biodiversity D. contest
3. A. explore B. endanger C. access D. discover
4. A. discovered B. conserved C. destroyed D. replaced
5. A. annual B. urgent C. sustainable D. risky
6. A. permits B. access C. biodiversity D. diversity
7. A. risky B. urgent C. sustainable D. wonderful
8. A. ecosystem B. location C. flora D. fauna
9. A. destination B. paradise C. heritage D. resource
10. A. peak B. heritage C. haven D. magnificent
