

Name: _____ Date: _____

divide 2

2 is an even number

Any even number can be divided by 2

Your 2 times (2x) table makes dividing by 2 ($\div 2$) easy!

$4 \times 2 = 8$ becomes $8 \div 2 = 4$ $5 \times 2 = 10$ becomes $10 \div 2 = 5$

You can put all the missing numbers in these tables!

MULTIPLY . . .

$1 \times 2 = 2$

$2 \times 2 = 4$

$3 \times \dots = 6$

$\dots \times 2 = 8$

$5 \times \dots = 10$

$\dots \times 2 = 12$

$7 \times \dots = 14$

$\dots \times 2 = 16$

$\dots \times 2 = 18$

$10 \times \dots = 20$

DIVIDE . . .

$2 \div 2 = 1$

$4 \div 2 = \dots$

$6 \div \dots = \dots$

$\dots \div 2 = \dots$

$10 \div 2 = \dots$

$12 \div \dots = \dots$

$\dots \div \dots = 7$

$\dots \div 2 = 8$

$18 \div \dots = \dots$

$20 \div \dots = \dots$

All even numbers can be divided by 2
