## Questions 6-10

For each question, choose the correct answer.

The people below are all looking for a magazine to buy.

On the opposite page there are descriptions of eight magazines.

Decide which magazine would be the most suitable for the people below.

6

Peter likes cycling and hillwalking, but what he really loves is finding out about the latest trends – technology, fast cars and music. He lives for the future and really isn't interested in finding out about the past.

7

Shula is very sociable and likes meeting new people. She's into fashion and makes her own clothes as a hobby in her free time.

8

Kieran would like to help a local charity but isn't sure what to do. He's a vegetarian and interested in the environment. He's still at school so he isn't looking for a job at the moment.

9

Jessica loves art in all its forms and really enjoys being outdoors. One day, she hopes to join a theatre group that performs in the open air. Her problem is finding people who are interested in the same thing.

10

Sonia has lots of hobbies. Her favourite way to spend time is going to the mountains and hillwalking, but as her family lives in a city, that's not always possible. Whatever the weather, you can be sure to find her busy and happy, even if it's at home.
