2. I forgot my email password.
3. My computer is running slowly.
4. I can't attach a file to my email.
5. The printer isn't working.

Solutions:

- Use a charger to power it up.
- Restart your computer and try again.
- Check if the file format is supported.
- Change the cartridge or check the connection.
- Use the "Forgot Password" option.

A Day with Technology

Yesterday, I woke up early and turned on my **laptop** to check my emails.

Unfortunately, my **Internet connection** wasn't working, so I couldn't **log on** to my favorite **website**. I decided to fix the problem by restarting the **router**, and luckily, it worked!

Later, I needed to print some school materials, but the **printer** was out of **ink**. I quickly bought a new cartridge online, **downloaded** the materials, and printed them.

In the afternoon, I uploaded a funny photo to share with my friends. My best friend commented, "Be careful—it might have a **virus**!" I scanned the file with my **software**, and everything was fine. Technology can be tricky, but it's so helpful when it works properly!

12. Read the text and choose the correct answer (a, b, or c) for each question.

- What was the first problem the author faced?
 - Their laptop wasn't charged.
 - The Internet connection wasn't working.
 - They forgot their password.
- How did the author fix the router issue?
 - By calling a technician.
 - By buying a new router.
 - By restarting the router.
- Why couldn't the author print the materials?
 - The printer was broken.
 - The printer was out of ink.
 - They didn't know how to use the printer.

4. What did the author upload in the afternoon?

- A video.
- A school project.
- A funny photo.

5. How did the author check the photo for viruses?

- They scanned it with software.
- They didn't check it.
- They deleted it immediately.

13. Based on the text, decide whether the following statements are true (True) or false (False).

- The author turned on their laptop to play a game. **True / False**
- The Internet connection worked perfectly in the morning. **True / False**
- The author fixed the Internet problem by restarting the router. **True / False**
- The printer was out of paper, not ink. **True / False**
- The photo uploaded by the author was safe and virus-free. **True / False**
