

27. - _____ does it take you to get to the nearest post office? - About 15 minutes only.
A. How many **B.** How much **C.** How often **D.** How long
28. The test was _____ easy that all the students got high scores.
A. such **B.** so **C.** too **D.** enough
29. The man _____ is talking to your mother is my English teacher.
A. which **B.** where **C.** who **D.** whose
30. Ms. Linh is a new office worker in Hoang Tho Group. However, her enthusiasm _____ for her lack of experience.
A. takes up **B.** turns up **C.** puts up **D.** makes up

PHẦN C: ĐỌC HIỂU (3,0 điểm)

I. Chọn một từ thích hợp trong ô dưới đây điền vào mỗi chỗ trống để hoàn thành đoạn văn sau.

better making in bring pollution

If you live in a city, you will probably see many people; hear the noise of traffic and smell the (31) _____ from cars and factories. We are living in a new era in the history of the world. Before this, most people were farmers. They lived in small communities (32) _____ the country. Now many people are leaving the farms and moving into the cities. They are looking for (33) _____ job. As a result, the cities are growing quickly. Most cities are becoming more crowded. People are driving more cars, burning more fuel, using more water, eating more foods, (34) _____ more garbage, and producing more things in factories than ever before. Life in modern cities can (35) _____ many opportunities, but also many difficulties.

II. Đọc đoạn văn sau và chọn một đáp án đúng trong số A, B, C hoặc D.

Solar energy is a long lasting source of energy which can be used almost anywhere. To generate solar energy, we only need solar cells and the sun. Solar cells can easily be installed on house roofs, so no new space is needed and each user can quietly generate their own energy. Compared to other renewable sources, they also possess many advantages. Wind and water power rely on turbines which are noisy, expensive and easy to break down. Solar cells are totally silent and non-polluting. As they have no moving parts, they require little maintenance and have a long lifetime.

However, solar energy also has some disadvantages. We can only generate solar energy during daytime because the system depends on sunlight. Besides, solar cells require large area to work effectively. The main disadvantage of solar energy is that it costs about twice as much as traditional sources such as coal, oil, and gas. This is because solar cells are expensive. Scientists are hoping that the costs of solar cells will reduce as more and more people see the advantages of this environmentally friendly source of energy.

36. What does the passage mainly discuss?
A. The ways and places to install solar cells.
B. The differences between solar energy and others.
C. The advantages and disadvantages of solar energy.
D. The requirements for the installation of solar cells.
37. In which place can solar energy be used?
A. Almost anywhere **D.** Only on house roofs
C. Only in new space **D.** In some large areas
38. The word "**they**" in line 6 refers to _____.
A. renewable sources **B.** solar cells **C.** house roofs **D.** turbines
39. According to the passage, we can only generate solar energy during daytime because this system depends on _____.
A. water power **B.** wind power **C.** turbines **D.** sunlight
40. What is *NOT* mentioned as an advantage of solar cells?
A. They operate quietly **B.** They require little maintenance
C. They cost little to produce **D.** They are non-polluting

III. Chọn một đáp án trong số A, B, C hoặc D điền vào mỗi chỗ trống để hoàn thành đoạn văn sau:

Air pollution, or dirty air, is (41)_____ by many things. Great clouds of smoke come from factories chimneys. Cars send smoke and fumes into the air. Burning waste fills the air (42)_____ bits of dirt. Even burning leaves adds smoke to the air. Smoke of all kinds is bad to breathe and can do great harm to the body. (43)_____ countries have made laws to limit the amount of fumes cars can exhaust into the air. They also set limits on pollution from power plants and factories. Although scientists have not yet been able to stop air pollution, they have found ways to make cars and factories burn fuel more cleanly. People are also more careful than they once were. For example, they have stopped burning fallen leaves in the (44) _____. We still have a long way to go. But if we all work together, we can (45) _____ the problem.
