

Internet Safety Day

What is Internet Safety Day all about?

Internet Safety Day started in 2005 and it now happens in over 100 countries worldwide.

How can children be kept safe?

The Internet is a huge door to the outside world. This means there are a lot of strangers out there.

Following rules for using the Internet will help keep us all safe.

Some uses of the Internet:

- gaming
- shopping
- learning new things
- reading about famous people
- booking tickets
- chatting to friends

Did you know?

It is illegal for anyone under the age of 13 years old to have a Facebook account.

Rules for using the Internet

Never share your personal details online. If you were next to a stranger on the bus, you wouldn't tell them where you live or your phone number. Don't tell people these things online.

Never meet anyone who you have 'met' online, without an adult going with you. It is very dangerous!

Is it safe?

If someone is nasty to you online, tell an adult. You do not have to feel sad or worried. This is the same as face-to-face bullying but online. It can make you feel frightened and upset.

Tell an adult as soon as you can!

The Internet can be brilliant; it can also be dangerous. Stay safe online and make the right choices.

Name: _____

1- What is the text about?

The text is about _____

2- When have the Internet Safety Day started?

The Internet Safety Day started on _____

3- Imagine you are 8 years old, can you have a Facebook account?
