For his whole life Hector has never been able to **get up** early. When he was in elementary school his mother would set the alarm clock for 6:00 AM but it would not **wake him up**. When Hector was in high school his alarm clock would **go off** but he simply **turned it off** and **went back** to sleep. Every morning his father would shout "**Come on** Hector! You're going to be late." The shouting did not help however. On a few days Hector would **show up** two hours late! Hector knew that his school would not **put up with** this situation much longer. His parents were frustrated but they could not **give up**.

One day Hector's mom **came across** a blog on the Internet where people were sharing their stories about oversleeping and different solutions they had **come up with** to solve their problems. After **going over** a few of these stories and realizing there could be an underlying health issue Hector's mother **made up** her mind that the best advice was to **look for** a sleep specialist on the Internet.

After **checking out** several websites Hector's mom **found out** about a specialist for her son's condition. She **called him up** and left a message. The next day the doctor **called her back** to talk about Hector's situation. Now the family is **counting on** him to help solve Hector's problem.
