

Hi there, I'm Sam. I'm 7 years old.
Today, I will talk about my feelings
and my 5 senses.

You know, I have many kinds
of feelings like happy, sad,
bored, excited, hot or cold.

And I also have 5 basic senses such as see, hear, smell, taste and touch.

When I play with my toys, I can touch them with my hands and hear their sounds with my little ears.
I am very happy.

Presentation

When I am hungry, my dad gives me an ice cream.

I use my tiny tongue to taste the ice cream. Then, I feel so excited.

When I am sad or bored, my eyes help me see many beautiful flowers in the garden and my nose help me smell them.

Then, I feel good again.

Whenever I am sick or tired, my mom gives my a hug. It's so much great!
