

# WEIGHTS

**1** How many grams do they weigh? Look and write.

a four mangoes 800g

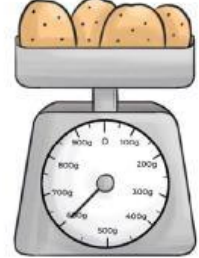

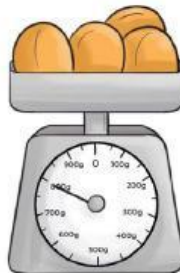

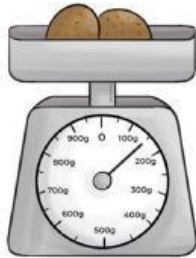

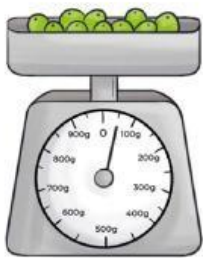

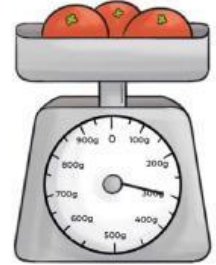

d three tomatoes \_\_\_\_\_

b five eggs \_\_\_\_\_

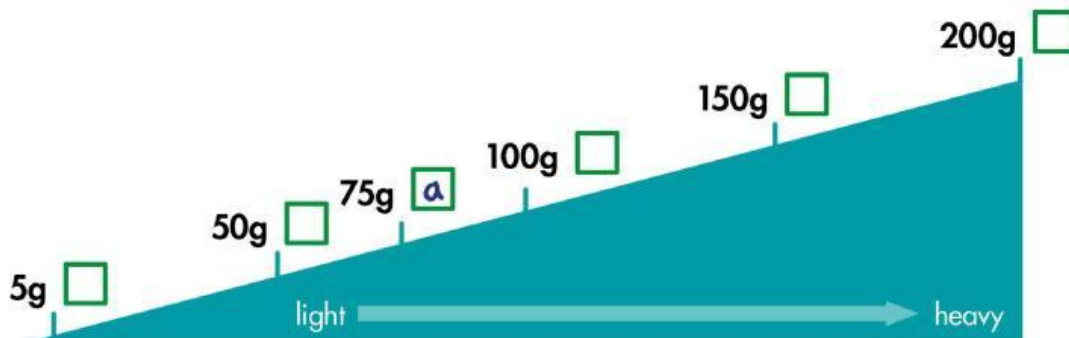

e ten grapes \_\_\_\_\_

c four potatoes \_\_\_\_\_

f two kiwis \_\_\_\_\_

**2** Order the weights. Label the chart.

### 3 Do the food sums.

1 carrot = 50g

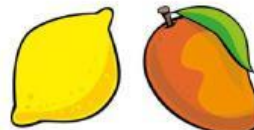

1 lemon = 100g

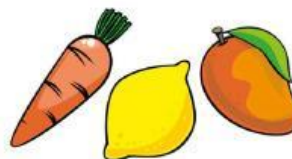

1 mango = 200g

1

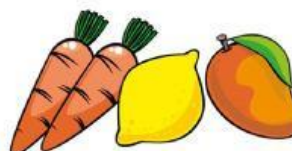

100 g + 200 g = 300 g

2

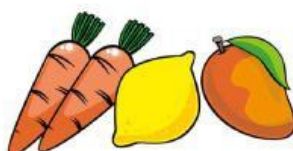

       g +        g =        g

3

       g +        g =        g

4

       g +        g =        g

4

Look, read and answer *yes* or *no*.

500g of watermelon  
weighs the same as  
500g of grapes.

Is it true?
