COMPARATIVE ADJECTIVES

Chimpanzees are	faster stronger	than	humans.
	more aggressive		chimpanzees.
Humans have got	smaller hands bigger noses		

When we compare two things, we use the comparative form of the adjective + *than*. When the adjective has got one syllable, the comparative form is created by adding **-er** to the adjective; when it's got two or more syllables, we use *more* + adjective + *than*.

When the adjective ends in a consonant-vowel-consonant, the last consonant is doubled in the comparative adjective.

1 Look and write sentences.

weak

big ears

intelligent

small mouths

aggressive

tall
