Name: ……Class 4i…

Review for the Mid term test 2

I. Complete.

1.oe ___ ophagus	2.s___ all intestine	3.st ___ mach
4.m___ uth	5.anu ___	6.large intestin ___
7.gra ___ ity	8.fo ___ ce	9. fri ___ tion
10.air re ____istance	11.up ____ hrust	12.multi __le forces

II. Read the function and write the parts of the digestive system.

1.Mixes food with digestive juices ……..

2.Chews food and starts digestion ……..

3.Breaks food down into very tiny particles ……..

4.Absorbs water and some minerals into the blood ……..

5.Pushes food into the stomach ……..

6.Removes undigested food from the body ……..

III. Complete.

moving objects ***Friction*** ***slows things down*** ***A normal force***
digestive system ***fibre*** ***carbohydrates*** ***Gravity*** ***slows things down***

a. A …… is made on an object that is in contact with another object.

b. …… comes from plants.

c. …….. is the force which attracts or pulls all objects towards the Earth.

d. We need …… to give our bodies energy.

e. Friction only acts on ……

f. Water resistance …… that are moving through water.

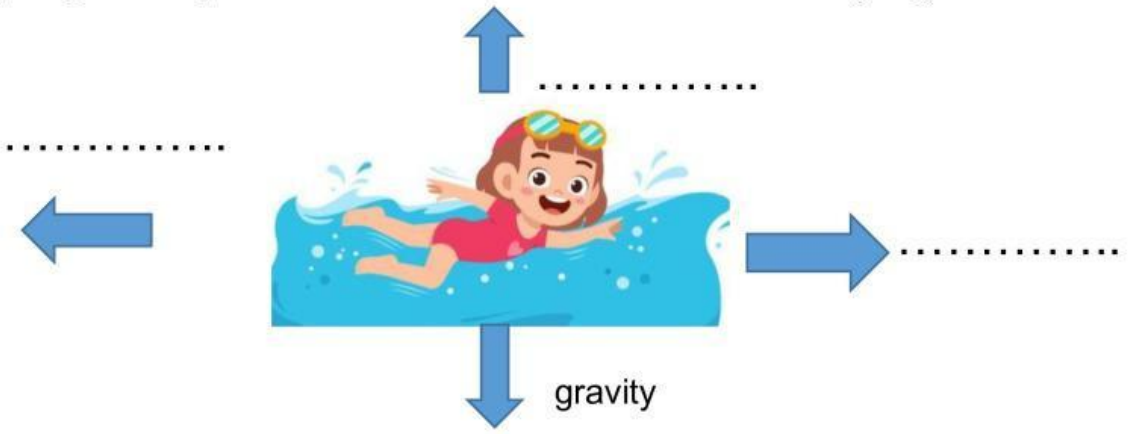

g. Air resistance ……..that are moving through air.

h. The …… changes food by breaking it down into tiny particles.

i. …….. is the force between 2 surfaces that are trying to slide past each other.

IV. Label the four forces acting on the swimmer. Name the natural forces.

gravity **upthrust** **thrust** **water resistance (drag)**

Natural forces: g……, u…… and w……
