

Name \_\_\_\_\_ Date \_\_\_\_\_

## End-of-unit 2 test

*The End-of-unit tests have been written by the authors. These may not fully reflect the approach of Cambridge Assessment International Education.*

- 1 Draw a line from each word to show which material is a solid, which is a liquid, and which is a gas.

solid

liquid

gas

- 2 Name another solid, liquid and gas that you might find at home. Write them in the correct groups.

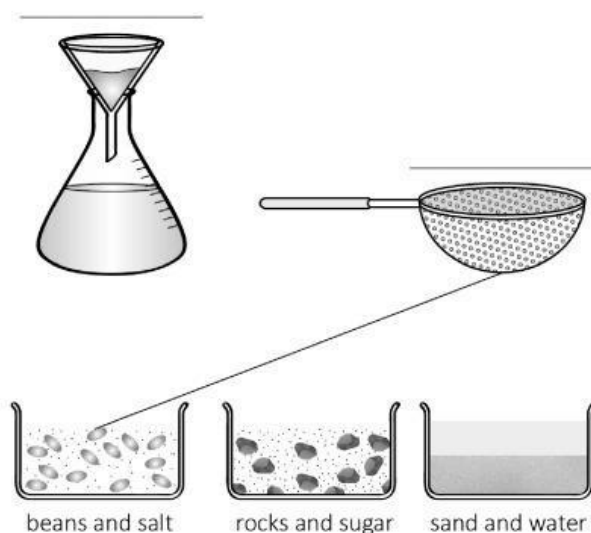

Materials found at home		
Solid	Liquid	Gas
wood	paint	carbon dioxide

- 3 Finish these sentences by writing the correct word.

Use these words.

solids      liquids      gases

- a Materials that change shape easily and take the shape of their container are called \_\_\_\_\_.
- b Materials that spread out to fill the space around them are called \_\_\_\_\_.
- c Materials that keep their shape unless they are compressed, stretched, twisted or bent are called \_\_\_\_\_.
- 4 Name this equipment. Draw lines to show which equipment you could use to separate the mixtures. The first one has been done for you.

- 5 a Name a material that dissolves in water. \_\_\_\_\_
- b Name a material that is insoluble in water. \_\_\_\_\_
- c What material is plastic made from? \_\_\_\_\_
- d Metals are made from ores. Where are metal ores found? \_\_\_\_\_
