

Додаємо і віднімаємо двоцифрові числа порозрядно

1. Обчисли за схемами.

The worksheet contains six problems, each with a number line and a place value chart. The first two problems are highlighted in blue.

Problem 1 (highlighted): $28 + 16 = \dots + \dots + \dots = \dots + \dots =$

Problem 2 (highlighted): $71 - 36 = \dots + \dots - \dots - \dots = \dots + \dots =$

Problem 3: $55 + 37 = \dots + \dots =$

Problem 4: $68 + 29 = \dots + \dots =$

Problem 5: $82 - 57 = \dots + \dots =$

Problem 6: $73 - 59 = \dots + \dots =$
