

## My Village and Farm

Hello! My name is Anna, and I live in a small village called Greenfield. My village is very beautiful. It has green fields, tall trees, and a small river. The river is clean, and we can see fish swimming in it. There are about 100 houses in my village. Most people in Greenfield are farmers, including my family.

We have a big farm. On our farm, we grow vegetables like carrots, potatoes, and tomatoes. We also have animals. There are cows, chickens, and sheep. My favorite animal is our horse, Star. She is white and very fast. Every morning, I help my parents feed the animals. After that, I go to school.

In the afternoon, I play with my friends near the river. Sometimes we help our parents on the farm. I like living in Greenfield because it is quiet and peaceful. The air is fresh, and the sky is always blue. I love my village and my farm!

### *Level 1: Basic Understanding (Easy)*

#### 1. True or False:

- Anna lives in a big city.

True

False

- There are cows and chickens on Anna's farm.

True

False

- Anna's favorite animal is a dog.

True

False
