/ 5

Reading

5 Read and circle *T* (true) or *F* (false).

Home	About	Contact me
My amazing Aunt Alice My aunt Alice is an amazing person. She was born in 1978 and four years later she started school. Girls at her school didn't use to like science or maths very much, but Alice enjoyed studying a lot. She worked hard at school and she was very clever. When she was 15, she decided to study for an exam to go to university. She went to Oxford University to study science when she was only 16. She used to visit her parents at home every weekend. After she finished studying at university, she got a job as senior science teacher at her old school. She got married to Uncle Pete in 2010 and they had two children – my cousins, Alan and Katy. Aunt Alice loves her job, and she likes helping students enjoy learning science. She doesn't want to retire for a long time!
