Lets hunt some "amphibians species" words!

Amphibians are cold-blooded and small vertebrate animals that need water, or a moist environment to survive.

Highlight the hidden words, they may go across or down.

10. TOAD

Lets hunt some "land animal" words!

Land animals, or more appropriately terrestrial animals, are those that spend most of their time on land.

Highlight the hidden words, they may go across or down.

6. KOMODO

7. OSTRICH

8. PANDA

9. SNAKE

10. TORTOISE

Lets hunt some "freshwater animal" words!

Aquatic animals are those that live in or around water.

Freshwater animals are aquatic organisms that populate ponds, rivers, and lakes.

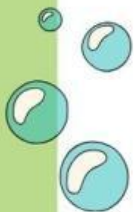

Highlight the hidden words, they may go across or down.

4. CRAB
5. EEL

6. FROG
7. OTTER
8. PIRANHA
9. SHRIMP
10. TURTLE

Lets hunt some "saltwater animal" words!

Aquatic animals are those that live in or around water. Marine or saltwater animals are aquatic species that inhabit oceans.

Highlight the hidden words, they may go across or down.

8. SHARK
9. TUNA
10. WHALE

Lets hunt some "vertebrate animal" words!

A vertebrate is an animal that has a backbone and a skeleton. Vertebrate animals include humans.

They have a hard skeleton made of bone that supports the body's tissue and anchor muscle.

Highlight the hidden words, they may go across or down.

6. LIZARD

7. OWL

8. PENGUIN

9. TOAD

10. WOLF

Lets hunt some "warm-blooded animal" words!

Warm-blooded animals are defined as animals that can regulate and maintain constant internal body temperature. They can survive in any temperature range as they can adapt to it easily. Highlight the hidden words, they may go across or down.

G	R	E	R	E	D	U	H	A	Y
I	U	P	E	A	E	C	A	C	K

4. EAGLE

5. HAMSTER

6. JAGUAR

7. MONKEY

8. PARROT

9. PIG

10. WHALE

Lets hunt some "mammal animal" words!

Mammals are vertebrate and warm-blooded.

Mammals have hair or fur, the young are fed milk produced by the mother's mammary glands, and they have a more complex brain than other animal.

Highlight the hidden words, they may go across or down.

7. PLATYPUS

8. RHINO

9. SKUNK

10. WHALE

Lets hunt some "species of birds" words!

Birds are warm blooded vertebrates, they are able to generate their own body heat.

They're identifiable by feathers, toothless beaked jaws and laying of hard-shelled eggs.

Highlight the hidden words, they may go across or down.

U	B	P	A	R	R	O	T	I	N

3. HEN

4. OWL

5. PARROT

6. PEACOCK

7. PENGUIN

8. ROOSTER

9. SWAN

10. VULTURE

Lets hunt some "cold-blooded animal" words!

Cold-blooded animals cannot generate their own heat or cool themselves down, so they cannot survive in extreme temperatures. They're too dependent on the environment around them to regulate their core temperature.

Highlight the hidden words, they may go across or down.

4. FROG
5. LIZARD
6. MOSQUITO
7. SHARK
8. SNAKE
9. SQUID
10. TURTLE

Lets hunt some "species of fish" words!

Fish are cold-blooded poikilothermous vertebrates — meaning they get their body temperature from the surrounding water.

Highlight the hidden words, they may go across or down.

7. OLM
8. SALAMANDER
9. TADPOLE
10. TOAD

Lets hunt some "types of reptile" words!

A reptile is an animal that has dry, rough, scaly skin. It has lungs for breathing. A reptile is cold-blooded and has a backbone. Most reptiles hatch from eggs.

Highlight the hidden words, they may go across or down.
