COMPLETE THE SONG

The water cycle  
Takes the water and moves it  
and all around the Earth x4

comes, when the heat from the Sun  
Warms up all the groundwater  
Then it turns to water vapor  
takes over It  
goes up to the clouds  
Water colds down  
And it changes to a liquid, now  
happens  
When the drops get big  
It falls like rain, snow, sleet, and hail  
, upon my head

I know it's the water cycle happening again  
Evaporation, condensation, precipitation  
The water cycle...
