Hi! I am Jess.
Did you know that we can get the correct measure of the ladder that you need using Pythagorean Theorem?

Hello!! I am Sab.
I am locked out of our house and the only open window is on the second floor 20 feet above the ground. I need to borrow a ladder from one of my neighbors. There's a bush along the edge of our house so, I need to place the ladder 15 feet from the house. What length of the ladder do I need to reach the window? Can you help me solve my problem so I can get in our house?

What is Pythagorean Theorem?

Ok. Let's Learn the Pythagorean Theorem....
