The Sahara Desert

The Sahara Desert is in northern Africa. It is bordered by the Atlantic Ocean on the west and the Red Sea on the east. It is the largest hot desert in the world, but it is not the largest desert in the world. Antarctica is the world's largest desert. The Sahara is about 9,000,000 square kilometers (3,500,000 square miles). It is much larger than Australia and just a little smaller than the United States.

The Sahara is one of the driest places on earth. The average rainfall is less than 2.5 centimeters (1 inch) per year. However, some areas are even drier. The Libyan Desert is one of the six areas of the Sahara. In parts of the Libyan Desert, no rain falls for years at a time.

Most of the Sahara is flat, but there are some very high mountains in the western and central parts. The highest mountain, Emi Koussi, is over 3,400 meters (11,000 feet) high.
