What is Forex Rebate?

Rebate, or cashback, is a reward that Forex traders receive based on their paid commission, spread, and swap. In this process, the **Introducing Brokers (IBs)** pays back a percentage of the traders' expenses.

To receive **rebate**, traders must register with a broker through an **IB referral link** or have their trading account linked to an IB.

The screenshot shows the TradingFinder Forex Rebate Calculator interface. At the top, there are two radio buttons for 'Rebate Type': 'Pips' (selected) and 'Money'. Below this, there are four input fields: 'Currency Pair' (EURUSD), 'Deposit Currency' (GBP), 'Rebate per Lot' (0.1), and 'Lots' (100). A 'GBP/USD Price' field shows 1.24470. A blue 'Calculate' button is on the left, and a 'Reset' button is in the center. A large purple box in the center contains the text: 'TradingFinder Forex Rebate Calculator; Cashbacks for 50+ currency pairs in 2 models: Money and Pip'. At the bottom, a green box displays the 'Rebate amount' as 80.34 GBP, accompanied by a star icon.
