

Обчисли усно, застосовуючи правило ділення суми на число. Відповідь запиши.

$$96 : 8 = (80 + 16) : 8 = 80 : 8 + 16 : 8 = 12$$

$40 : 2 = \square\square$

$64 : 4 = \square\square$

$33 : 3 = \square\square$

$88 : 8 = \square\square$

$34 : 2 = \square\square$

$65 : 5 = \square\square$

$38 : 2 = \square\square$

$48 : 3 = \square\square$

$54 : 3 = \square\square$

$52 : 4 = \square\square$

$32 : 2 = \square\square$

$36 : 3 = \square\square$

$66 : 6 = \square\square$

$48 : 4 = \square\square$

$55 : 5 = \square\square$

$39 : 3 = \square\square$

$76 : 4 = \square\square$

$75 : 5 = \square\square$

$72 : 6 = \square\square$

$88 : 8 = \square\square$

$78 : 6 = \square\square$

$45 : 3 = \square\square$

$85 : 5 = \square\square$

$95 : 5 = \square\square$

$77 : 7 = \square\square$

$60 : 3 = \square\square$

$36 : 2 = \square\square$

$44 : 4 = \square\square$

$57 : 3 = \square\square$

$44 : 2 = \square\square$

$80 : 4 = \square\square$

$63 : 3 = \square\square$

$70 : 5 = \square\square$

$87 : 3 = \square\square$

$80 : 5 = \square\square$

$99 : 9 = \square\square$

$55 : 5 = \square\square$

$60 : 5 = \square\square$

$72 : 4 = \square\square$

$84 : 7 = \square\square$

$56 : 4 = \square\square$

$96 : 8 = \square\square$

$51 : 3 = \square\square$

$90 : 6 = \square\square$

$91 : 7 = \square\square$

$96 : 6 = \square\square$

$84 : 4 = \square\square$

$98 : 7 = \square\square$
