Questions 11–15

For each question, choose the correct answer.

Corinna Held talks about attending a music festival

I've always been mad about music, whether it's something I'm listening to on my headphones, dancing to at a club or enjoying at a concert. But my greatest love has always been going to music festivals. They are a great place to listen to your favourite musicians and to enjoy yourself with friends, and they are also an opportunity to meet new people. But the experience can be spoilt if you don't take care, so here are some things I've learnt along the way.

Let's start with what you should take. You can't be sure of the weather so I'd suggest preparing for anything. Take sun cream. If it's sunny you'll be out in the open all day. And don't forget something to keep you dry in a thunderstorm, even if it's only a large plastic rubbish bag. Your mobile phone and **charger** are essentials, of course, but apart from these don't take anything you wouldn't want to lose. Take comfortable shoes as you'll be on your feet all day, and if you're camping bring a tent that's easy to put up and weatherproof.

Once you're there, take a tour of the area so you know exactly where everything is. If you're with friends, agree on meeting points. Your tent is likely to be a long way from the action so you need places to find each other closer to the stages. This will help if you and your friends decide to see different bands, which is likely as your taste in music is probably not exactly the same. Be polite to people camping near you as they could become good friends. Drink lots of water and check the programme carefully so you don't miss your favourite acts.

And when it's all over? Here's my number one request: before you go home, please pick up all your litter in and around your tent. I can't believe the mess people create at festivals. Some people even leave their tent behind. And as you leave, enjoy the feeling that you've just felt, with a wonderful connection to all those around you. You've just had an amazing opportunity to see lots of different bands and make friends and generally had an experience you'll never forget.

Why The Sea is Good For You

We all love spending time by the sea. The lucky ones might live on the coast and enjoy the benefits throughout the year.

16 Most of us would say we feel healthier by the ocean. In the past, doctors would actually recommend spending time by the sea to their patients. And research has shown that people who live on the coast are more likely to believe their health is good compared to those living in a city. So how do we benefit, exactly?

Well, to start with it's great for our mental health. **17** They have shown that watching, listening to or being in the ocean helps our brains slow down. The sound of the waves can help us relax and has a positive effect in reducing feelings of stress. This is why people who have trouble sleeping are often told to listen to recordings of the sound of waves hitting the shore to help them relax at bedtime.

18 We go out a lot more when we're on holiday by the sea. We often become more active on holidays and people who live on the coast are usually more active too. And if you take your walks on the beach this is even better. **19** The sea air is also good for people with breathing problems. There is less pollution in the air near the ocean and in the autumn and winter the air is fresher. **20** It has even been found that the chemicals found in sea water are the same chemicals that help us have healthy skin.

No wonder then that we often feel so much better at the end of a seaside holiday and why we look forward so much to booking our next one!

- A** Being by the sea is also good for our physical health.
- B** This is healthier than the dry atmosphere in homes with central heating.
- C** It's not just swimmers who know how to do this.
- D** The rest of us have to wait for our next holiday.
- E** However, in the end you'll notice the difference.
- F** Walking on sand requires more effort than on the pavement.
- G** Scientists have discovered that we have something called a 'blue mind'.
- H** So scientists disagree about the reasons for doing this.
