# British and American English – the same, but different

British and American people speak the same language, English, but with some small differences.

**1 Vocabulary** Some words are different in American English, for example, they say *ZIP code*, not *postcode*; *vacation*, not *holiday*; and *cell phone*, not *mobile phone*. Some words have different meanings, for example, in British English a *purse* is a thing where women have their money and credit cards. In American English a *purse* is a woman's bag.

**2** \_\_\_\_\_ Colour, favour, and other words that end in -our in British English end in -or in American English. Centre, theatre, and other words that end in -tre in British English end in -ter in American English.

**3** \_\_\_\_\_ There are some small differences, especially prepositions. For example, Americans say *See you Friday*, but British people say *See you on Friday*.

**4** \_\_\_\_\_ This is the really important difference between American and British English. American accents and British accents are very different. When an American speaks, British people know he or she is American, and vice versa.
