Cyber Safety

The internet is great, but it can also be <u>scary</u>

Playing games, looking at videos and talking to friends online can be a lot of fun! Take a look at these <u>tips</u> to make sure you do it safely.

Don't give information about yourself

Don't <u>share</u> personal stuff online like your full name, address or phone number. Someone could try to use this information to find you. Choose a fun nickname!

Only talk to people you know

When using social media or online chats, make your profile private and only add your friends in real life. Talk to your parents first before you chat with people you don't know.

Think before you post

You can get in <u>trouble</u> with Police if you send photos of you or other people without clothes on. You can also get in <u>trouble</u> if you bully someone or talk about hurting them.

Watch what you buy online

Some <u>stuff</u> on the internet needs money like playing games or shopping. Always ask your parents before spending money online!

Talk to your parents about what you do on the Internet

Some things on the internet might make us feel <u>scared</u> or <u>confused</u>. Always talk to a parent or older person you trust if you are worried about something online.

Match the words with their meaning
