Task 1: Read the text.**John's illness**

It is early spring now and many people catch cold. A month ago I suddenly fell ill. I ran a high temperature. I sneezed and had a sore throat. Also I had a headache and a cough. My whole body ached. My mother made hot tea for me but that didn't help me much. She wanted to give me some pills too, but there weren't any in our house. My mother called a doctor. The doctor came. He examined my lungs, felt my pulse and took my temperature. He said that I had the flu and told me to stay in bed and to have a rest. He prescribed me the treatment. My mother bought me all the necessary pills and other medicine at the chemist's. I followed all the doctor's instructions and very soon I felt much better. In ten days I fully recovered and went to school again.

**Example**

Journalists do~~many~~..... different things at work. Here is an idea of some of the things journalists do.

1 Before they write anything, journalists go and meet people and ask lots of questions

2 they need to find out information before they write their stories. Journalists will sometimes pay to have good wifi so that they know they can send information back to newspaper offices

3 News stories are usually quite short

5 about things that just happened.

Journalists often work with photographers

When they write their stories, journalists use different computer programs to make sure that there aren't mistakes in their work.

7 They must be sure that is correct before the stories go into newspapers. It isn't easy to
