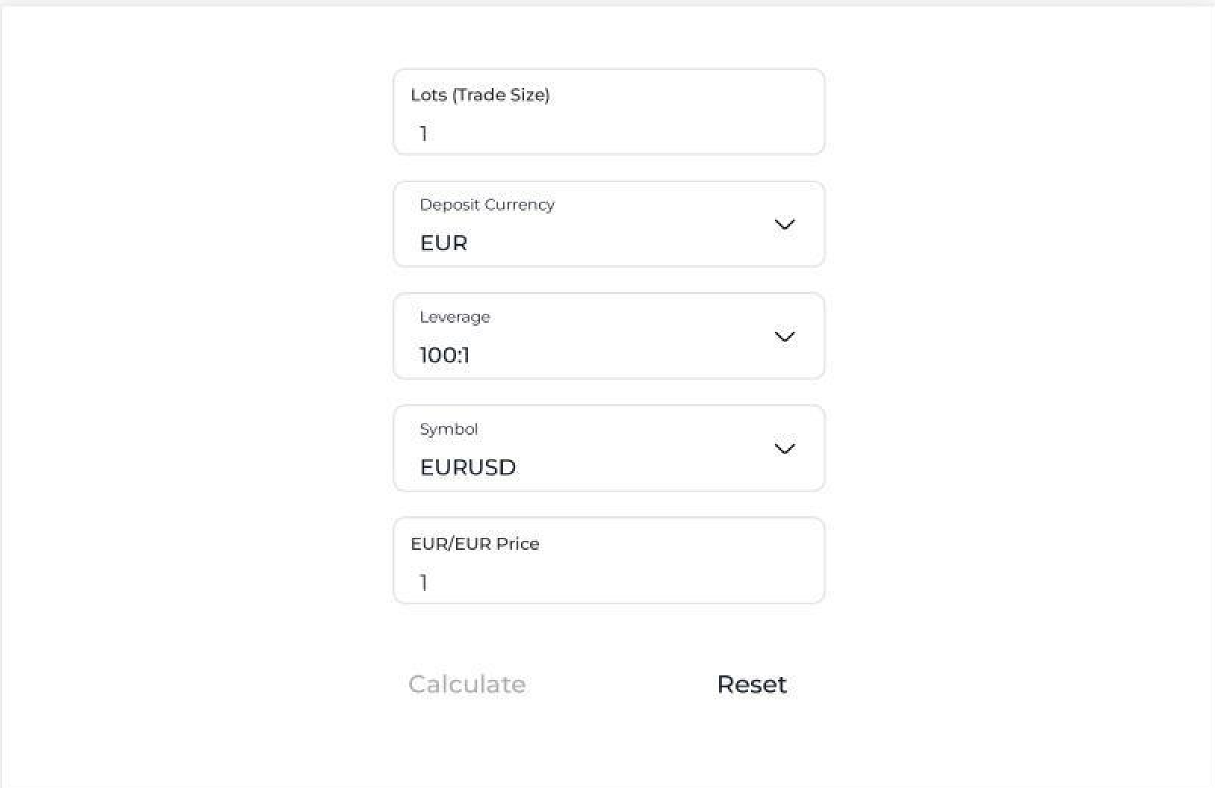
Forex Margin Calculator Tool [Leverage Calculation up to 1:1000]

The TradingFinder Margin Calculator tool determines the exact **margin** required to maintain a leveraged position. This tool suggests the necessary margin by receiving the **trading symbol**, **deposit currency**, **leverage**, and **trading volume** from the user.

Introduction to TradingFinder Margin Calculator

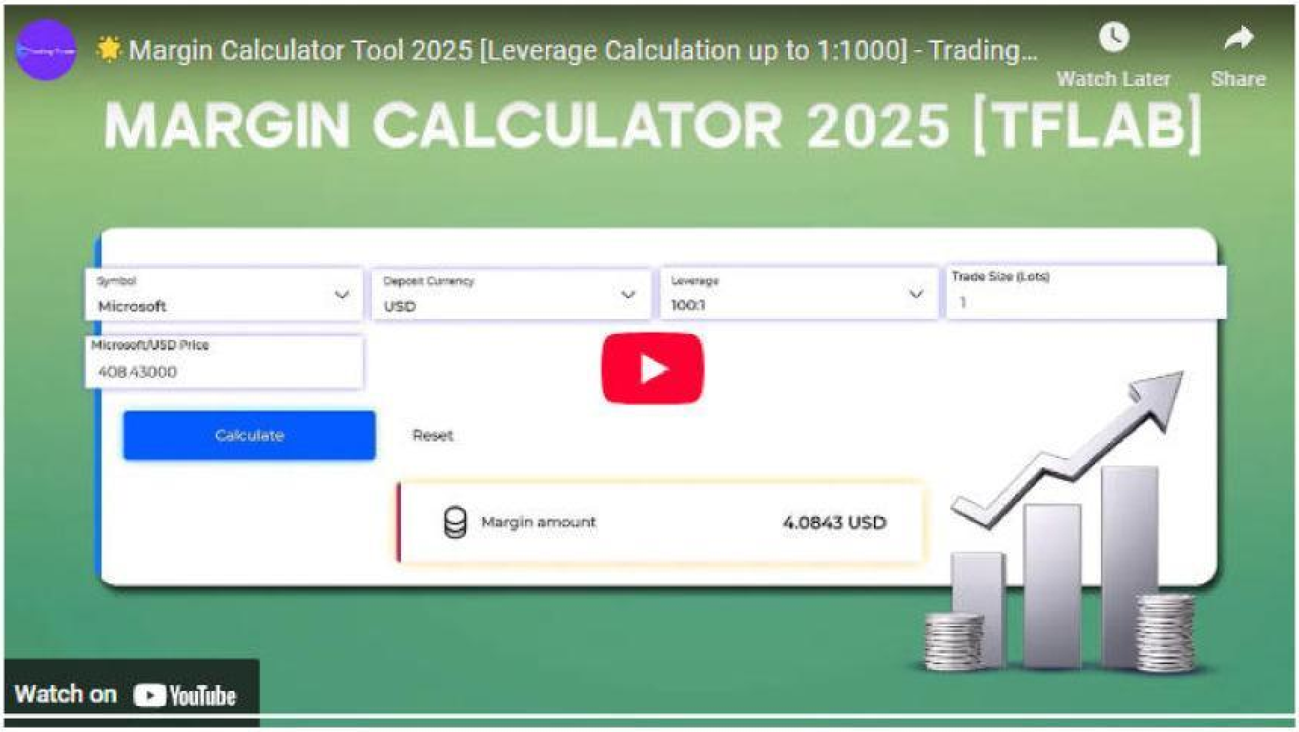
Margin refers to the minimum capital required to open a **leveraged trading position**; this amount is **variable** depending on the trading volume and leverage used. The TradingFinder Margin Calculator **calculates** the Margin amount for you and displays the result **without delay**.



Features of TradingFinder Margin Calculator

This service is provided based on the following specifications and features:

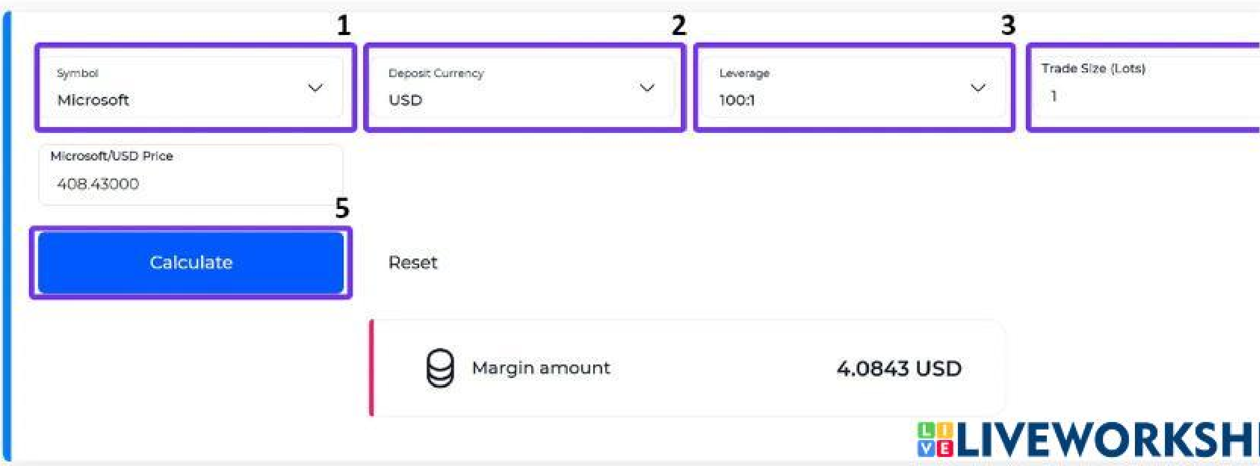
- Free to use
- Leverage selection from 1:5 to 1:1000
- Coverage of Forex symbols, stocks, indices, digital currencies, and commodities
- Automatic real-time symbol price information fetching
- Over 20 choices in the deposit currencies list
- Search capability among symbols, currencies, and leverage options



How to Use TradingFinder's Margin Calculator Tool

Follow these steps to determine margin in a leveraged trade:

1. Select your desired **trading symbol** from the list;
2. Specify the **deposit currency** (account base currency);
3. Set the trade **leverage**;
4. Enter the **trade size** in lots;
5. Click on the **"Calculate"** option.



The tool's final output appears in the **"Margin Amount"** box. Clicking the **"Reset"** button will clear all fields of the tool.

Formula for Calculating Margin Amount

TradingFinder's margin calculator computes the output value based on the following formula:

- **Margin Amount** = (Trading Volume × Symbol Price)/Leverage

Why Should We Use TradingFinder's Margin Calculator?

This tool helps with Margin management by specifying the margin amount to reduce the likelihood of a **Margin Call**. Additionally, by knowing the exact margin number, you will have **maximum profit** possible from leveraged trades.

Conclusion

TradingFinder's Margin Calculator tool accurately calculates the **margin** amount by inputting the **symbol**, **account currency**, **leverage**, and **trading volume**.

In addition to margin, **TradingFinder live spread tool** is also available for free, so you can find out the trading costs of opening a position at over 100 brokers after calculating margin.
