X. Read and write T for True or F for False.

Where do plants and animals live?

There are many places where plants and animals live. Animals need to eat plants for food. Plants need animals to make more plants. They have to live in one place and help each other.

Some live in the desert. Deserts are dry and hot. There is only a little water. It is hot in the day and cool at night. Not much moves in the day. It is too hot. Camel, desert fox and oryx live in the desert.

Sea is another place for animals to live. The sea has water. Fish and dolphins live in the sea. The world has many places for animals to live. The desert and the sea are only a few of the places they can live.

E.g. *There are few places for plants and animals to live.*

_____ F _____

1. Deserts are cold places.

2. In the desert, it is hot in the day and cool at night.

3. The desert fox lives in the sea.

4. Camel, fish, and dolphins live in water.

5. The world has many places for animals to live.
