### I. Read and answer the questions

Tim was in the living room doing his homework when he smelled smoke coming from the windows. He sensed something wrong and went to the window to take a look.

As he peered out of the window, he saw a thick blanket of smoke and a large group of people downstairs pointing up at his block of flats. He also heard some of them shouting, "Fire, fire, get out!" Tim panicked and ran to his mother, who was sleeping in the room. He woke his mother up and took the identity card of his mother and himself and quickly ran down stairs. As they were running down, they realized that their neighbor's home, which was two floors below theirs, was on fire.

The firefighters arrived shortly and put out the fire within minutes. They said the neighborhood was lucky as it was not windy, the fire did not spread to the neighboring homes. Tim and his mother had a scare but were glad that all was right.
