Breaker Blocks & Reversal Candles Indicator on TradingView - free - [Tradingfinder]

ICT Setup 02 [TradingFinder] Breaker Blocks + Reversal Candles by TFlab — TradingView.com

The Breaker Block indicator is a **level indicator** designed according to the concepts of the **ICT (Inner Circle Trader)** trading style.

Breaker Block zones are critical for trend reversals and trade entries and help traders identify **support** and **resistance** zones.

Breaker Blocks are essentially broken **Order Blocks** that play a different role after the price retraces to them.

Bullish Breaker Block

Based on the 15-minute price chart of **Cardano (ADA)**, a bearish Order Block is broken by the price and turns into a Bullish Breaker Block. As shown in the image, the price retraces to the **Bullish Breaker Block (marked in green)**, creating a suitable opportunity for entering buy trades. The small green arrow also identifies the **Reversal Candle**.
