Markets	All markets

Uptrend Conditions

In the price chart of **Solana (SOL/USD)** in the 1-minute timeframe, a long-term **uptrend** has developed. Based on their **strategies** and trading styles, traders can identify suitable reasons for entering buy trades.

In such conditions, this tool simplifies the determination of **Stop Loss** and **Take Profit** levels, considering the **entry point**.

How to use the RRR tool in the bullish trend of Solana (SOL/USD)

Downtrend Conditions

The chart below displays the **AUD/JPY** currency pair in the 30-minute timeframe. The **analyst determines** an appropriate entry point for trade **entry using** technical analysis methods or identifying price patterns.

This point is typically near **support levels** (for buy trades) or **resistance levels** (for sell trades), and **Stop Loss** and **Take Profit** are determined based on the **entry point**.

Easy Reward to Risk (RRR) indicates the bearish trend of the AUD/JPY currency pair
