PART 1. Read the following dialogue and mark the letter A, B, C, or D on your answer sheet to indicate the correct answer to each of the following questions from 19 to 24. (1.2 points) 100-120 words

Cool Facts About Television

Television has a long and interesting history with many surprising facts. Philo Farnsworth, the inventor of television, didn't let his children watch it because he believed it might affect their studies. In the early days, TV shows were in black and white, and viewers could only see images in grey tones. Later, color broadcasts began and changed the way people enjoyed watching.

In 1969, when the first man walked on the Moon, more than 600 million people watched the event on TV. It became one of the most-watched television moments in history.

Another amazing fact is about Suresh Joachim from Sri Lanka. He set a world record in 2005 after watching TV non-stop for 69 hours!

(NB) Question 19. The person who invented television was _____.

- A. Thomas Edison
- B. John Baird
- C. Philo Farnsworth
- D. Alexander Bell

(NB) Question 20. Why didn't Philo Farnsworth let his children watch TV?

- A. He thought it was boring.
- B. He believed it could affect their studies.
- C. There were no cartoons.
- D. It was in color.

(NB) Question 21. It is said that in 1969, more than 600 million people watched _____ on television.

- A. The Olympic Games
- B. The first cartoon
- C. Walking on the Moon
- D. The first movie

- D. How to become a TV news reporter.

PART 2. Read the following passage about An Eco Home and mark the letter A, B, C, D on your answer sheet to indicate the best answer to each of the following questions from 25 to 29. (1.0 point)

An Eco Home

John Kangister and his wife, Kathy, live in an eco-friendly home in California, USA. Their house doesn't harm the environment because it doesn't use coal or oil, and it produces no dangerous gases. Most of the house is underground, with wooden walls, floors, and recycled glass windows. Solar panels provide electricity for lights, computers, and other devices. John and Kathy also grow vegetables on top of the house and get water from a well. Their home looks like something from a fantasy film. They love it because it's cheap to build, good for the planet, and looks amazing. They believe eco homes are a great idea for everyone.

(TH) Question 25. What is the main idea of the passage?

- A. John and Kathy live in a small wooden house.
- B. Eco homes are expensive but look great.
- C. John and Kathy live in an eco home that helps protect the environment.
- D. Solar panels can help save energy.

(NB) Question 26. Where is John and Kathy's eco home?

- A. In New York
- B. In Canada
- C. In California
- D. In Texas

(NB) Question 27. What material are the windows made of?

- A. Plastic
- B. Recycled glass
- C. Metal
- D. Stone

(NB) Question 28. What do John and Kathy grow on top of their house?

- A. Flowers
- B. Trees
- C. Vegetables
- D. Fruits

(TH) Question 29. Why do John and Kathy love their home?

- A. It is in a forest.
- B. It uses a lot of electricity.
- C. It helps the environment and looks great.
- D. It was expensive to build.

PART 3. Read the following passage about Robots and mark the letter A, B, C, or D on your answer sheet to indicate the correct option that best fits each of the numbered blanks from 30 to 33. (0.8 point)

Smart robots are becoming more common and useful in our lives. (30) _____, they can now understand human speech and react in real time. They are also designed to perform useful tasks at home.
