

Modern Family

Modern Family is an American TV show about three different nuclear families* that are all part of one extended family. They all live close to each other in Los Angeles.

The Prichetts

Jay is the oldest member of the family. He divorced his first wife many years ago and now he is married to his second wife **Gloria** who also got divorced. She was born in Columbia but after her divorce she moved to the USA. She has a son from her first marriage called Manny and a younger son with Jay called **Joe**. So, Manny is Jay's step son and Joe's half brother.

The Dunphys

Claire is Jay's daughter from his first marriage. She and her husband have three children two girls and one boy: Haley, Alex and Luke. Jay is their grandfather. It might seem kind of funny but Claire is Manny's stepsister. Claire and **Phil** have a niece Lily that lives with Mitchell and Cameron. So, Claire is Lily's aunt and Phil is Lily's uncle.

The Prichett-Tuckers

Mitchell is Jay's son from his first marriage. He and his husband Cameron Tucker have a daughter called Lily whom they adopted from Vietnam. **Lily** is an only child. She is Haley, Alex and Luke's cousin and Jay and Mitchell are their uncles. Alex and Haley are Cameron and Lily's nieces and Luke is their nephew.

The Dunphys family members

Phil works as a real estate agent. He is an optimistic person and makes jokes all the time. He is very friendly and he sometimes acts more like a friend than a parent to his children. He likes to spend his free time with his family.

Claire works in her father's closet company. She is strict but friendly at the same time. She is good at running. She also likes to organize things and people.

Alex is the middle child of Claire and Phil Dunphy. Her sister Haley is two years older and her brother Luke is three years younger than Alex. Alex is probably the most clever and intelligent of Claire and Phil's children. When she doesn't have to study, she usually plays the cello. She is also interested in Science.

Haley is the oldest child. She is young and pretty. She doesn't like to study but she is very popular in her high school. In her free time she often goes to parties or concerts. She is the complete opposite of her younger sister Alex. The two girls have often fights.

Luke is Claire and Phil's third and youngest child. He is three years younger than Alex and five years younger than Haley. Haley and Luke don't have as many fights as she does with Alex. Luke has a special relationship with his father because they almost have the same likes and dislikes. They often play video games or sports and watch TV together.
