

Task 1: Read the passage below and match the words with their meanings.

In a smart city, people can (1) **interact** with technology and each other to make life easier. The (2) **neighbourhood** is designed to be safe and modern, making it comfortable for everyone. However, many people are concerned about (3) **privacy**, as personal information might be collected without permission. The aim is to create a strong (4) **sense of community**, where neighbors know each other and work together to improve their area.
