

Surface Area

Question 1. You received a rectangular package from an online store.

You want to wrap it with decorative paper before giving it as a gift. The package has the following dimensions:

How much wrapping paper do you need to cover the whole package?

Question 2: Match the Object to Its Surface Area

Look at the gift boxes below. Match each one to the correct surface area based on its dimensions.

Surface Area Options:

1) 28 cm^2

2) 22 cm^2

3) 92 cm^2
