

Name: _____

Worksheet (A)
Add decimals

- Read the word problem and add the decimals:

1. A large bag of sand weighs 21.5 kilograms. A small bag of sand weighs 11.6 kilograms. If Mrs. Asma buys a large bag and a small bag, how many kilograms of sand did she purchase altogether?

2. Jamal is bicycling on a trail. He bicycles for 12.6 kilometers and takes a break. Then he bicycles for 10.7 kilometers. How many kilometers has Jamal bicycled in all?
