I read the other day that we ¹*are living* / *will be living* on Mars in the next 30 years. Well, you and I ²*aren't going to live* / *aren't living* on Mars – they ³*are only sending* / *are only going to send* their top astronauts in the near future! Normal people ⁴*aren't living* / *won't be living* there for a long time. The famous scientist Professor Stephen Hawking said that we ⁵*are going to need* / *are needing* to find a new planet in 100 years because we ⁶*are having* / *are going to have* more problems with climate change and other things in the future. I ⁷*'m giving* / *'m going to give* a presentation on space travel next week at school, so I've done some research! Hawking had previously said that in 1,000 years, people ⁸*aren't living* / *won't be living* on the Earth at all. I'm not sure I agree – a lot of things can happen in 1,000 years!

- 5 Write three predictions in the future continuous. Use the ideas in the box or your own ideas.
