QUESTÃO 10

The issue of forest fires: How to avoid it?

Forest fires are a big problem for our planet. They destroy trees, animals, and pollute the air.

Every year, millions of hectares of forest are lost because of fires — many caused by people. In 2023, more than 4 million hectares of forest burned in Canada alone.

Fires can start with a small flame, a cigarette, or a campfire left burning.

We must protect nature and be responsible. Caring for the environment is everyone's job.

What is a good way to help **prevent** forest fires?

- A)** Recycle plastic bottles and cans.
- B)** Plant trees in your neighborhood.
- C)** Never leave a campfire burning in the forest.
- D)** Use less water when you brush your teeth
