BÀI TẬP 2

☐☐☐☐

The diagram illustrates the life cycle of a Monarch butterfly in a circular flow. The stages are as follows:

- Stage 1 (Top):** A cluster of small, light-green eggs on a green leaf.
- Stage 2 (Right):** A white circle containing a large red question mark and a small cartoon character, representing a missing stage.
- Stage 3 (Bottom Right):** A green, elongated chrysalis hanging from a yellow stem.
- Stage 4 (Bottom Left):** An adult Monarch butterfly with orange and black wings.
- Stage 5 (Left):** A caterpillar with yellow, black, and white stripes on a green leaf.

Arrows connect the stages in a clockwise cycle. On the far left, there are four empty rectangular boxes corresponding to the stages of the caterpillar, eggs, chrysalis, and adult butterfly, intended for labeling.
