## **ASSIGNMENT 22**

## Note Values II

REVISION: These are the different note lengths which you need to understand.

Note Name	Symbol	Note Length
Semibreve	0	4 beats
Minim		2 beats
Crotchet	J	1 beat
Quaver		½ beat
Pair of Quavers		½ beat each

If we have two quavers next to one another -

We take the tail of each one and join it together

We call this a <u>pair of quavers</u> or <u>beamed quavers</u> which altogether adds up to 1 beat. (Even though they are tied together, each note is still  $\frac{1}{2}$  a beat).
