

Name: _____

Date: _____

Lily and the Magic Birthday Cake

Lily was turning 11 today. She loved birthdays, presents... and most of all, cake!

When she walked into the kitchen, she saw a beautiful cake on the table. It was pink, full of sprinkles, and had her name on it.

Next to it, there was a small sign that said: "DO NOT EAT BEFORE THE PARTY!".

But Lily was too curious. "Just one little bite," she said.

She picked a small piece with her finger and ate it. It was delicious! But then, something strange happened.

Her fingers turned into candles. Her arms became soft like sponge cake. Her hair turned into whipped cream!

"Oh no! The cake was magical!" Lily shouted.

Within seconds, she was a real birthday cake—round, sweet, and full of frosting!

Her family came in and gasped. "Where's Lily?"

"She is the cake!" her brother said, laughing.

Luckily, the cake spell didn't last forever. After the party, Lily turned back into a girl.

"I'll never eat the cake before the party again!" she said, smiling.

Questions

1. *Where is Lily when the story starts?*

- a) In her room
- b) In the kitchen
