

MY BEES

I live in the country and there is a large garden round my house. I have a lot of bees in hives there, and they make good honey for me. There are a lot of flowers in my garden so they make their honey from these flowers and keep it in honeycombs inside the hives.

Sometimes a bee stings me but I don't mind. When I collect the honey, I wear a special suit, a net over my face and I also cover my hands with special gloves. Then the bees do not sting me.

When I have collected a lot of honey, we put it in pots and take most of it to the town. We put a small table at the side of the road and put the pots of honey on it. Then I shout, 'Honey! Delicious honey! Who wants my sweet honey?' Our honey is not expensive and soon we have sold all the pots.

Of course, we keep some of our bees' honey at home and my family and I eat it. We never buy any honey or jam in the shops, because we make all our jam from the fruit trees in our garden. It tastes much better than the jam from the shops.

I encourage everybody to eat honey and home-made jam regularly. Both of them are healthy and nutritious food!

COMPREHENSION: FILL THE BOXES WITH ONE WORD FROM THE STORY

- When bees people, it hurts.
- Honey has a very taste.
- I sell the honey in, not in bottles.
- Bees keep honey in inside hives
- My wife and I make from our fruit trees.
- When I collect the honey, I use for my hands.

TRUE (T)/ FALSE (F)? ONLY ONE TRUE PHRASE IN EACH LOT
