The question for number 1 to 3

Galang: Mom, what's the name of this river?

Posma: It's Sungai Lestari.

Pak Rahmansyah: When I was your age, I often came down to this river.

Galang: But it does not look very clean. Was the river this dirty back then? Did you swim in the river?

Pak Rahmansyah: I did! The river was quite clean back then.

Galang: Were there many children in the river?

Pak Rahmansyah: A lot of kids swam and played in the river.

Galang: How did it become so dirty like this? Did people throw their trash into this river?

Bu Posma: Well, that is one of the causes. People also started to use a lot of plastic. And plastic does not decay easily.

Pak Rahmansyah: Plastic trash began to litter a lot of places. It made this river dirty.

Bu Posma: The plastic trash also causes many other problems, like the flood in a nearby town a couple of days ago.

A team of scientists from Texas University helped an injured sea turtle when they sailed in the ocean near Costa Rica. The scientists were collecting data on sea turtles when they saw the injured turtle. They noticed something in the nose of the turtle when it was swimming

near their boat. But, they initially thought it was only a worm. The scientists were curious. They caught the turtle to examine the object in the turtle's nose. They wanted to make sure it was not a dangerous parasite.

They extracted a couple of centimeters of the object with pliers. The object came out. It was wrinkled and brownish.

It was a plastic drinking straw!

The scientists removed the object immediately because they were far away in the ocean. They spent almost ten minutes pulling it from the nostril of a sea turtle. With great diiculty, they succeeded in pulling the straw out of the turtle's nostril. The nostril was bleeding, but the turtle was safe.

The straw incident proved how dangerous plastic was to animals in the oceans.

Last holiday my students and I went to Yogyakarta. We stayed at Morison Hotel which is not a long way from Malioboro. On Friday, we went to the sanctuaries in Prambanan.

There are three significant sanctuaries, the Brahmana, Siwa, and Wisnu. They are truly stunning. We went by just Brahmana and Syiwa sanctuaries, on the grounds that Wisnu sanctuary is being remodeled. On Saturday morning we went to Yogya Kraton.

We spent around two hours there. We were fortunate on the grounds that a brilliant and amicable aide drove us. At that point, we proceeded with our adventure to Borobudur. We touched base there at four p.m. At 6 p.m. we heard the declaration that the Borobudur entryway would be closed. In the evening, we left Yogyakarta by bus.
