Question 18.

- A. developed as a project aimed at healthcare and service industries
- B. making its primary debut in commercial software development
- C. that replaces industrial robots in manufacturing facilities
- D. which was built specifically for factory automation

Question 19.

- A. allowing her to perform repetitive tasks without fatigue
- B. designed for wide-scale manufacturing improvements
- C. enabling her to communicate and display human-like emotions
- D. meant to increase efficiency in industrial production lines

Question 20.

- A. Beyond simple programmed responses
- B. Built to provide manual labor solutions
- C. Unlike other industrial models
- D. Though initially limited in usage

Question 21.

- A. to enhance user comfort and interaction with artificial systems
- B. for recognizing patterns in industrial environments
- C. thus eliminating all forms of human interaction from daily life
- D. contributing to machine learning through repetitive tasks

Question 22.

- A. humans can expect to be obsolete in various roles
- B. more jobs will be automated than ever before
- C. humanoid robots will be commonplace in daily life activities
- D. society will abandon personal interactions altogether

Read the following passage about Healthy Benefits of Yoga and mark the letter A, B, C or D on your answer sheet to indicate the best answer to each of the following questions from 23 to 30.

Yoga is a healthy lifestyle. One of the benefits of yoga is that you can choose a yoga style that is suitable for your lifestyle, such as hot yoga, power yoga, relaxation yoga, etc. If you are a yoga beginner, Hatha Yoga, which focuses on basic postures at a comfortable pace, would be great for you. If you want to increase strength through using more of your own body's resistance, Power Yoga may be right for you. Whether you prefer you're at home, in a private **session**, watching a DVD or at a studio or gym, there are a huge variety of options available to suit your goals and needs.

Improved flexibility is one of the first and most obvious benefits of yoga. During your first class, you probably won't be able to touch your toes. But if you stick with it, you'll notice a gradual loosening, and eventually, seemingly impossible poses will become possible. Each of the yoga poses is built to **reinforce** the muscles around the spine, the very center of your body, which is the core from which everything else operates.

When the core is working properly, posture is improved, thus alleviating back, shoulder, and neck pain. Strong muscles do more than look good. **They** also protect us from conditions like arthritis and back pain, and help prevent falls in elderly people. And when you build strength through yoga, you balance it with flexibility. If you just went to the gym and lifted weights, you might build strength at the expense of flexibility.

Yoga gets your blood flowing. More specifically, the relaxation exercises you learn in yoga can help your circulation, especially in your hands and feet. Yoga also gets more oxygen to your cells, which function better as a result. **Twisting poses are thought to wring out venous blood from internal organs and allow oxygenated blood to flow in once the twist is released.** Many studies found that a consistent yoga practice improved depression and led to greater levels of happiness and better immune function.

(Adapted from <https://www.anahana.com/en/yoga/yoga>)

Question 23: Which of the following is NOT mentioned as one of the benefits of yoga?

- A. increased flexibility B. improved blood circulation
C. better social skills D. enhanced immune function

Question 24: The word **reinforce** in paragraph 2 is OPPOSITE in meaning to:

- A. weaken B. stretch C. soften D. tighten

Question 25: The word **They** in paragraph 3 refers to:

- A. Conditions B. Strong muscles C. Elderly people D. Falls

Question 26: The word **session** in paragraph 1 could best be replaced by:

- A. incident B. class C. meeting D. event

Question 27: According to the passage, which of the following statements is TRUE?

- A. All yoga styles require an advanced level of fitness.
B. Yoga can help reduce shoulder and neck pain.
C. Flexibility is the only benefit of yoga.
D. Depression is unrelated to yoga practice.

Question 28: Which of the following best paraphrases the underlined sentence in paragraph 4?

- A. Twisting poses are harmful as they reduce blood flow to the organs.
B. Twisting poses only benefit blood flow when done in moderation.
C. Twisting poses block blood flow and cause tension in the organs.
D. Twisting poses may help remove old blood from organs and bring in fresh blood.

Question 29: In which paragraph does the author discuss how yoga can improve mental health and immunity?

- A. Paragraph 1 B. Paragraph 2 C. Paragraph 3 D. Paragraph 4

Question 30: In which paragraph does the author describe the types of yoga suitable for different goals?

- A. Paragraph 1 B. Paragraph 2 C. Paragraph 3 D. Paragraph 4

Read the following passage about endangered languages and mark the letter A, B, C or D on your answer sheet to indicate the best answer to each of the following questions from 31 to 40.

[I] Social media has rapidly changed how people communicate, making it easier than ever to connect with friends and family. [II] Platforms like Facebook, Twitter, and Instagram allow people to share updates, photos, and ideas instantly, connecting users from all around the world. [III] However, the shift to online communication also brings challenges, such as **reduced** face-to-face interactions, and for many, the art of personal, meaningful conversation is becoming lost. [IV] Additionally, social media influences public opinion and spreads information quickly, which can have both positive and negative impacts on users' perception of current events.

While social media connects people globally, it has also led to an increased risk of misinformation. When incorrect information spreads, it can have significant consequences. For example, rumors or misleading news can shape opinions on important issues or damage reputations unfairly. Additionally,

platforms that encourage the rapid sharing of content often prioritize engagement over accuracy, which only worsens the spread of false information. To address this, social media companies are beginning to implement fact-checking systems and remove harmful content, though these measures are not foolproof.

Despite these efforts, social media remains a powerful tool for influencing public discourse. Many people rely on social platforms for news and updates, making **them** crucial channels for political campaigns and social movements. In recent years, social media has played a pivotal role in organizing protests, spreading awareness on social issues, and amplifying voices that may otherwise go unheard. From climate change activism to political campaigns, social media continues to drive social change across the globe—a true **force to be reckoned with**.

As social media's role in communication continues to evolve, individuals are urged to use it responsibly. Educators, parents, and policymakers emphasize the importance of teaching people, especially young users, to critically evaluate the information they encounter online. Responsible usage not only helps combat misinformation but also promotes constructive dialogue in an increasingly connected world. Social media is an indispensable tool, but like any tool, it requires careful use to yield the best results.

Question 31. Where in paragraph 1 does the following sentence best fit?

"People of all ages are now turning to social media for entertainment and information."

- A. [I] B. [II] C. [III] D. [IV]

Question 32. The phrase "**force to be reckoned with**" in paragraph 3 could best be replaced by

- A. something large B. something influential C. something affected D. something debated

Question 33. The word "**them**" in paragraph 3 refers to _____.

- A. people B. voices C. news channels D. social platforms

Question 34. According to paragraph 2, which of the following is NOT a risk associated with social media?

- A. Misinformation B. Damaged reputations C. Political activism D. Incorrect public opinion

Question 35. Which of the following best summarises paragraph 3?

- A. Social media is increasingly used to promote commercial products.
B. Online platforms play a major role in shaping news and public opinion.
C. News platforms rely on social media to communicate with their audience.
D. Social media platforms prevent the spread of misinformation effectively.

Question 36. The word "**reduced**" in paragraph 1 is OPPOSITE in meaning to _____.

- A. expanded B. decreased C. limited D. lowered

Question 37. Which of the following is TRUE according to the passage?

- A. Social media companies are fully successful in stopping misinformation.
B. Most people do not trust information shared on social media.
C. Social media has a strong influence on public discourse and activism.
D. The spread of information on social media is limited to personal updates.

Question 38. Which of the following best paraphrases the sentence "**As Social media's role in communication continues to evolve**" in paragraph 4?

- A. Social media remains the most popular tool for global communication.
B. The way people communicate on social media is constantly changing.
C. Social media has finally reached its peak in communication.
D. There is little change in how social media affects communication.

Question 39. Which of the following can be inferred from the passage?

- A. Social media has replaced traditional news channels completely.
B. People need to be cautious when trusting information on social media.

C. Social media limits opportunities for social interaction.

D. Fact-checking prevents all misinformation on social platforms.

Question 40. Which of the following best summarises the passage?

A. Social media, while connecting people globally, presents new challenges in communication that require critical evaluation of information.

B. The growth of social media ensures that only accurate information reaches the public.

C. Platforms like Facebook focus primarily on entertaining users rather than informing them.

D. Misinformation spread on social media leads to positive social outcomes.
