**My uncles' houses**

Isn't it strange that two brothers can be so different? I've got two uncles – Uncle Jack and Uncle Tom. Everything about them is different, including their homes.

Uncle Jack lives in a very small, wooden house. There are only two rooms in it – a bedroom and a kitchen. The bedroom has a bed, a small desk and a chair. In the kitchen there's a little cooker and a sink – but nothing else. There isn't even a fridge! Uncle Jack's milk and cheese are outside. And where's the toilet? Well, that's also outside ... (Don't ask!)

Now, Uncle Tom's house is very different. It's big, as you can see from the picture. There are five bedrooms and three bathrooms. Uncle Tom likes having visitors! The living room is really big and has three comfortable sofas. My favourite room is the kitchen – there are three fridges! And everything is clean and tidy.

So, which house do I prefer? Well, I really like both of them for different reasons!
