**Task 1: Write the vocabulary with the correct definition and write an example sentence.**

| Vocabulary       | Definition                                             | Example                       |
|------------------|--------------------------------------------------------|-------------------------------|
| <u>Scientist</u> | Experts <i>who study science</i> and the natural world | Scientists found a new fossil |
| _____            | An animal that only eats plants                        | _____                         |
| _____            | An animal that eats meat                               | _____                         |
| _____            | An animal that hunts other animals                     | _____                         |
| _____            | An animal that is hunted and eaten                     | _____                         |
| _____            | No longer in existence                                 | _____                         |
| _____            | To develop gradually                                   | _____                         |
| _____            | The shape of a bone or plant in rock                   | _____                         |
| _____            | A big change in ideas, methods, or power               | _____                         |

## Task 2: Read and fill the blanks.

### Dinosaurs

Example

Dinosaurs ..... lived ..... on our planet 65,000,000 years ago! The first dinosaurs

- 1 ..... like big lizards. Many of them
- 2 had short tails, big heads ..... walked on four legs. Most dinosaurs were herbivores, which means that they only ate plants. Some of these dinosaurs were very
- 3 ..... but other kinds of dinosaur were bigger and heavier and were carnivores, which means that they ate meat. Dinosaurs
- 4 lived ..... warm forests where there
- 5 were lots and lots ..... plants and water. But about 60,000,000 years ago, some
- 6 people say ..... weather on Earth suddenly got colder and drier. Many plants
- 7 ..... dinosaurs liked to eat stopped growing, which was a terrible problem for these animals, so soon dinosaurs disappeared too.
- 8 Today, people sometimes ..... dinosaur teeth in rocks or under the ground. Dinosaurs are now extinct, but you can
- 9 learn about ..... in special science museums or when you watch scary dinosaur
- 10 films ..... TV.

living lives lived

- 1 looks looked looking
- 2 and because than

- 3 small smaller smallest

- 4 to in from
- 5 off out of

- 6 the one those

- 7 what that who

- 8 finds found find

- 9 they their them

- 10 at by on

## Task 3: Listen and write.

Example

Our school trip!

Place: ..... butterfly ..... farm

1 Day of trip: .....

2 Went there by: .....
