Pip Value Calculator Tool

TradingFinder's Pip Calculator uses the standard pip calculation formula

What parameters make up the Pip Value Calculator tool?

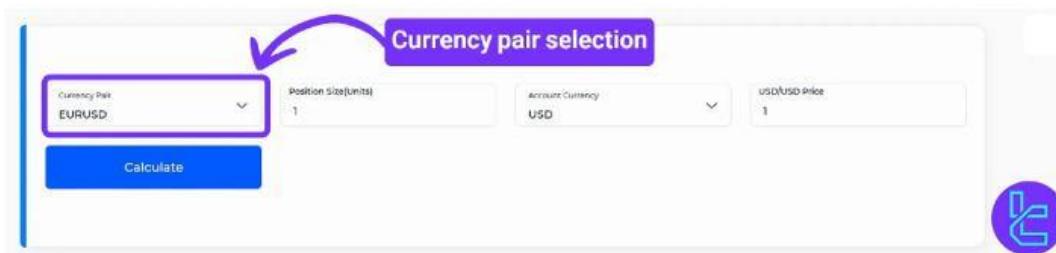

TradingFinder's Forex Pip Value Calculator consists of the following sections:

- ⚡ **Currency Pair:** Option to select from over **70** currency pairs including **EUR/GBP, EUR/USD, XAU/USD**
- ⚡ **Base Amount:** The amount of **lot/mini-lot** for trading
- ⚡ **Account Currency:** Selection of account base currency from among **24** currencies
- ⚡ **Exchange Rate:** Converting **pip value** to **account currency**

Step-by-Step Guide to Using TradingFinder's Pip Calculator

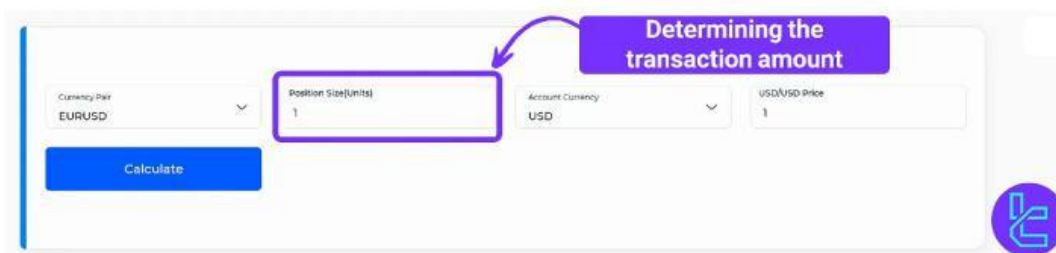

Follow these steps to use the Pip Value Calculator:

1. Select your desired currency pair

Select desired currency pair for pip estimation

2. Enter the base amount

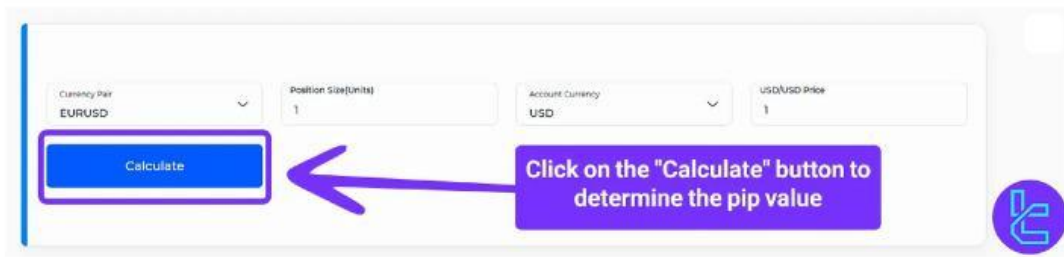

Set trade base amount to increase pip calculation accuracy

3. Select the account currency from various options

Set trading account base currency

4. After automatic exchange rate estimation, click the **"Calculate"** button to determine the pip value.

The screenshot shows a web-based calculator interface. It has four input fields at the top: 'Currency Pair' with a dropdown menu showing 'EURUSD', 'Position Size(units)' with a text input showing '1', 'Account Currency' with a dropdown menu showing 'USD', and 'USD/USD Price' with a text input showing '1'. Below these fields is a red rectangular button labeled 'Calculate'. A red arrow points from a red text box on the right, which contains the text 'Click on the "Calculate" button to determine the pip value', to the 'Calculate' button. In the bottom right corner of the interface is a circular logo with a stylized 'L' and 'W'.

Click the "Calculate" button to determine pip value

Pip Calculator Formula

This tool calculates the pip value based on the standard forex pip value formula; **Pip Calculation Formula:**

$$\text{Pip Value} = \text{Trading Volume} \times \text{One Pip/Account Currency Exchange Rate}$$

Conclusion

TradingFinder's Pip and Profit Calculator is a tool for **risk management** and precise pip calculation in **major, minor, exotic currency pairs, stocks, gold, silver, and Bitcoin**.

The pip value in this tool is calculated by **dividing the exchange rate** by **one pip** and **multiplying** it by **the trade volume**.
