

FLYERS A2.3

CLASS 6

Reading: What is NASA?

NASA is the space agency of the United States. It studies the universe. NASA sends rockets, robots, and astronauts into space.

In 1969, NASA sent the first men to the Moon. Neil Armstrong and Buzz Aldrin walked on the Moon.

Today, NASA works on new missions. It wants to send people to Mars.

NASA also uses telescopes, like the Hubble, to look at stars and galaxies.

The universe is very big, and NASA tries to learn more every day.

Read and write true or false.

1. NASA is the space agency of Mexico. → _____
2. Neil Armstrong walked on the Moon. → _____
3. NASA wants to send people to Mars. → _____
