

## Multiplication with Zero (0)

Look and understand :

$$\begin{array}{ccccc} & \times & 0 & = & 0 \\ 2 & \times & 0 & = & 0 \end{array}$$

As shown in the above figure, when 0 is multiplied to a number, we always get **zero**.

We can read it as : Two zero is zero

See more and do yourself. One has been done for you :

$$\begin{array}{ccccc} & \times & 0 & = & 0 \\ 4 & \times & 0 & = & 0 \end{array}$$

$$\begin{array}{ccccc} 0 & \times & & = & 0 \\ & \times & & = & \end{array}$$

$$\begin{array}{ccccc} & \times & 0 & = & 0 \\ & \times & & = & \end{array}$$
